- 11400-VUZ-A Heat, Cool, Defrost-blk louvers

SIMPLE BELOW DASH MOUNTING This system has been engineered by Vintage Air with a matched blower motor and blower wheel to provide greater cooling capacity and air delivery than any other under dash unit on the market.

CONTROLS Built-in rotary knob controls.

Dimension Detail - Heat & Cool or Cool Only

Dimension Detail

Shown with optional defrost unit

Mounting

Under dash mounting doesn't disturb any of the behind-the-dash components such as radios or original heating systems.

Quality Control

Vintage Air's complete in-house engineering, design, and production facility ensures that you get a well designed, tested, and proven system because we control quality at every step.

SHOP TOUR

Vintage Air is a manufacturer not a repackager. Our team has skills ranging from metals to plastics, refrigeration to engineering. Here, Billy Wehrs is assembling the various components which make up one of our exclusive Super Flow condenser units.
