Black anodized trim.

**49061-VUQ**  
Machined aluminum  
trim. Face size 1.75"x  
4.875"

Our industrial double-oven vacuum thermoforming machine allows us to produce all of our own cases, duct parts and other components in-house. Amador Campos and Sabino Alejandro remove an un-trimmed ABS sheet after the molding process. From here it will travel over to the trimming area and the "flash" or scrap materials will be recycled.
